Re: James Williams Injury - 15256-18

I am in receipt of a Supervisor's Investigation from Sgt. Ronald Magsamen pertaining to an injury to a defendant, James Williams. On May 25, 2018 the narcotics unit was working and members were actively looking to arrest James Williams. The narcotics unit had active narcotic sales charges against Mr. Williams in addition to having a search warrant for his person, his residence and his vehicle.

Members of the narcotics unit located James Williams and a vehicle stop was conducted on East Main Street. Immediately Officer Rosen and Sgt Magsamen approached the vehicle, NY Regiment, and located James Williams in the driver's seat. James was asked to get out of his vehicle which he refused to do. Officer Rosen began to explain the situation, advising him about the search warrant for him and some of his property. Mr. Williams did not believe the officers and continued to refuse to exit his vehicle. Mr. Williams began to reach for things in his vehicle which caused Officer Rosen, Sgt. Magsamen and State Trooper Inv. Javaheri to act and physically remove Mr. Williams form the vehicle. All officers involved report using soft hand tactics to deal with this situation. James was removed from his vehicle and brought to the ground. During this process, James received a minor abrasion above is right eye and a minor scrape on the bridge of his nose. Sgt. Magsamen reported that he offered James medical attention on a few occasions and he refused every time. On one occasion he stated "he didn't need an ambulance, he will be fine."

Two questions need to be answered: Was the arrest justified and was the force used necessary and reasonable.

#### First – Was the arrest justified?

The narcotics unit had open drug sales charges for James Williams . The narcotics unit also had a search warrant for James Williams person, his vehicle and his apartment, 58.5 Cottage St. In this case the arrest was justified.

#### Second - Was the force used necessary and reasonable?

The City of Middletown Police Department's policy and procedure governing this question is **AGO-022-11 USE OF PHYSICAL PORCE & DEADLY PHYSICAL FORCE**, specifically Covered under PROCEDURES:

- A) Personnel will use only the physical force or deadly physical force necessary to accomplish
   The lawful objectives set forth below.
   SUB 2
  - To Affect an Arrest or Prevent an Escape:
  - A) An officer. May use physical force or deadly physical force when and to the extent he/she reasonably believes it to be necessary to affect a lawful arrest, or to lawfully prevent a person's escape from custody.

In this case the Officers involved used the necessary and reasonable force. The officers attempted to explain the situation (procedural justice) to Mr. Williams but he did not want to hear what the officers had to say. Mr. Williams believed that he did not have a warrant and it appeared that nothing was going to change his mind. The officers used communication up until Mr. Williams began to reach for something in his vehicle. At this point the officers used soft hand to remove him from his vehicle, take him to the ground and finally handcuff him.

There were no policies violated and I see no issues with the way this situation was handled. I have no Recommendations and do not feel there are any training issues that need to be addressed.

Re: James Williams Search Warrant/

- 1. On 5/25/2018 at approximately 1422 hours, the Narcotics Unit were conducting an "Operation" in the area of East Main Street, within the City of Middletown. Officers had open narcotic sale charges into James C Williams AKA "Mills" (Target #1). Officers also had an active Search Warrant for the Targets residence and vehicle (2005 Land Rover NY Reg
- Det. Nyland was conducting surveillance on the Targetat approximately 1415 hours, and advised members of the Narcotics Unit that he observed the target driving in the above stated motor vehice on East Main Street.
- 3. Members of the Narcotics Unit, along with Inv. Javaheri from the NYSP observed the Target on East Main St, in the area of Woodlawn Ave. Officers conducted a vehicle stop regarding the Open Sales and Search Warrant.
- 4. PO Rosen and Inv. Javaheri approached the driver side of the vehicle and Sgt. Magsamen approached the passenger side. PO Rosen identified himself to the target and asked for the targets identification. The target was then advised that officers had a warrant for him and PO Rosen asked the target to exit the vehicle.
- 5. The target became agitated and stated to PO Rosen that he doesn't have a warrant and that he doesn't have to get out of the car. The target was then advised by PO Rosen that he was under arrest and to exit the car. Again, the target stated that he wasn't under arrest and was not

going to get out of the car. Officers continued to talk to the target and get him to comply with our requests. The target continued to refuse all of the officers requests and talking with him was not productive.

- 6. The target then began to reach for items within his vehicle and was asked to stop, for officer safety. The target ignored officers, at which point PO Rosen and Inv. Javaheri attempted to remove the target from the vehicle using soft hand tactics. The target was holding onto the steering with both of his hands. Sgt Magsamen was able to break the targets grip on the steering wheel, at which point the target was physically removed from the vehicle by PO Rosen and Inv. Javaheri.
- 7. Once out of the vehicle, the target was refusing to give officers his hands so he could be cuffed. The target was brought down to the ground by PO Rosen, Inv. Javaheri and Sgt. Magsamen. While on the ground, the target was still refusing to give his hands to officers so he could be cuffed. Using soft hand tactics, officers were able to obtain the targets hands and place him in cuffs.
- 8. Sgt. Magsamen had the target placed in car #11, at which time I was able to talk to the target about his refusal to cooperate and his injuries. The target stated to Sgt. Magsamen that he didn't mean to fight, and that his lawyer told him that he had no warrants. I also observed an abrasion to the upper right eye area and small cuts on the nose area. I asked the target if he wanted an ambulance to the scene to look at his injuries. The target stated he didn't need an ambulance, and that he was going to be fine. I evaluated the two areas and determined that the injuries were minor in nature. The target was then transported back to 370.
- 9. At 370, I asked the target again if he wanted an ambulance, and again he stated that he didn't need one. I allowed the target to clean his cuts with water and paper towels. I asked the target why he was not cooperating, and he stated because he knew he didn't have any warrants. The target was also apologetic to officers and was feeling sorry for not cooperating.
- 10. Officers completed a case report, and arrest report for narcotic charges from the investigation, as well as from narcotics recovered from the target. Officers also conducted a Use of Force Form and submitted it for approval. Photos of the target's injuries were also taken for documentation.
- 11. Throughout the course of this supervisor investigation, I have found

that all officers involved followed department policy and procedures. The vehicle stop was conducted for a valid reason, with officers having probable cause for arrest. PO Rosen and Inv. Javaheri utilized constraint and used verbal judo while dealing with the target, which in my opinion de-escalated the police contact from the start. The use of force used by the officers was authorized and necessary in this instance, when dealing with uncooperative subjects. All force was documented and the appropriate steps were taken in the aftermath of the incident. It is important to the success of our officers that we continue to provide officers with training, constant awareness of use of force situations and debriefing's after the fact, so officers can remain safe and know how to deal with these incidents.
